To whom it may concern:

RE: Letter of Recommendation

I had the pleasure of working with Mr. Shannon Hilton on a number of healthcare projects over the past few years at different healthcare sites, most recently being the turnkey of CMH's MRI department. During this period, Mr. Hilton proved to be a valuable asset who directly contributed to the project's success well maintaining schedule milestones and keeping the hospital's stakeholders well informed. I have appreciated his innovative thinking and positive attitude to find solutions when the budget is constrained, his ability to effectively manage multiple stakeholders such as consultants and trades, and his strong technical understanding of healthcare infrastructure requirements. I would recommend Mr. Hilton in any construction management role for projects in the healthcare construction industry, especially in the diagnostic imaging niche. Mr. Hilton's is a straight shooter and one of the few that make it a pleasure to do business with from inception to completion.

Please feel free to contact me for any further discussion.

Yours truly,

John Fabiano
